TABLETOP SAKO

The Sako real wood veneer tabletop brings the warm appeal of genuine wood into any dining area and is available in natural oak, natural walnut, natural ash, or ash walnut, as well as in a range of sizes. The easy-care lacquered surface enhances the natural grain while allowing for quick and effortless cleaning in everyday use. A solid wood edge or thick veneer edge (oak) provides a premium finish and ensures excellent impact resistance for intensive use in the hospitality industry. This tabletop combines a high-quality, natural appearance with the durability required for daily use in restaurants, cafés, and hotels. It is the ideal choice for anyone looking to create a welcoming atmosphere for guests without compromising on functionality or longevity.

- Natural appearance thanks to premium real wood veneers in oak, walnut, and ash
- Easy-care lacquered surface for quick and hassle-free everyday use
- Robust thick veneer solid wood edge with high impact resistance for demanding hospitality environments
