

TABLETOP GANO TERRAZZO

Add stylish accents with our marble slabs! Made of 85% premium marble and equipped with a water-resistant wood backing for stability, they offer timeless elegance with a matte finish. Available in square or round shapes, these slabs combine aesthetics and functionality with a thickness of 20 mm. Perfect for indoor or outdoor spaces, they create a harmonious blend of design and natural beauty – for an exclusive oasis that inspires. As a natural product, slight color and structural variations may occur, enhancing the unique character of each piece. Avoid large temperature fluctuations to ensure durability. Our outdoor marble slabs have a polished yet open-pore surface. In daily use, liquids like coffee or red wine may penetrate and cause stains, further emphasizing the natural charm of the surface and making each slab unique.

- Terrazzo trend tip
- suitable for all table frames
- très facile à entretenir
