ARMCHAIR **MEYORO**

The Meyoro armchair combines modern design with well-considered functionality for outdoor use. The slim, powder-coated aluminium frame impresses with its stability, durability and contemporary appearance. Available in two attractive weave options, Meyoro offers versatile design possibilities for terraces and outdoor dining areas. The version with rope-look synthetic wicker stands out with its fully wrapped armrests, distinctive cross weave on the seat and vertical double weave on the backrest. Alternatively, Meyoro is available with classic Vienna wicker on the seat and backrest. The hand-woven synthetic strap gives the chair an elegant, timeless appearance and combines the traditional woven look with the benefits of modern outdoor materials. Both weave options are waterproof, do not absorb water and are ready for use again immediately after a rain shower. Thanks to its stackable design, Meyoro is ideal for flexible, space-saving seating arrangements in busy outdoor hospitality areas.

• Two high-quality weave options: Modern rope look or hand-woven Vienna wicker made from synthetic strap
• Waterproof and ready for use again immediately: The synthetic wicker does not absorb water and dries particularly quickly after a rain shower
• Robust and stackable: Durable, powder-coated aluminium frame for flexible use in outdoor hospitality settings
